

CloudXeus Support Notice - Image-Based Source Document

This PDF is designed for the Azure AI Search enrichment demo. The notice below is embedded as an image, so the key operational details should be discovered through OCR when the enrichment skillset runs.

Demo instruction: upload this file to the same Blob Storage container, run the enriched indexer, and then search for the unique reference code or image-only support terms to prove that OCR text was added to the enriched index.

CLOUDXEUS EMERGENCY SUPPORT NOTICE

Blue Falcon Hotline: +971-800-CXEUS

Severity 1 incidents receive 24x7 emergency response.

Weekend escalation is available only for Severity 1 production outages.

Image-only notice details:

1. Create a priority incident ticket before calling the hotline.
2. Include affected service, customer impact, region, and start time.
3. Use reference code CX-IMG-OCR-7421 in the escalation notes.
4. Attach screenshots only after removing customer secrets.

This notice is intentionally embedded as an image for Azure AI Search OCR enrichment demo.

The image above is intentionally not duplicated as normal selectable body text in this PDF. This makes it useful for demonstrating the OCR skill, Merge skill, language detection, and key phrase extraction in Azure AI Search.
