

Refund Policy

Document ID: CX-POL-001 | Version: 2.3 | Effective: January 15, 2026 | Owner: Billing Operations | Review cycle: Annual

1. Purpose

This policy defines when and how CloudXeus Corporation issues refunds for its subscription plans and add-on services.

2. Refund eligibility by plan

Plan	Refund window	Conditions
CloudXeus Basic	14 days from purchase or renewal	Full refund, no questions asked
CloudXeus Pro	30 days from purchase or renewal	Full refund, no questions asked
CloudXeus Enterprise	Per contract terms	Governed by the master service agreement

The refund window is measured from the date the charge was applied, not the date service began.

3. Duplicate and incorrect charges

- Verified duplicate charges are refunded in full, regardless of plan or refund window.
- Duplicate-charge refunds are processed within **5 business days** of verification.
- Customers are not required to cancel their subscription to receive a duplicate-charge refund.

4. Non-refundable items

The following are not eligible for refunds:

- One-time professional services and onboarding fees
- Premium support add-ons after the first support case has been opened
- Usage-based compute charges already consumed
- Marketplace third-party add-ons (refunds handled by the third-party vendor)

5. How refunds are issued

- Refunds are issued to the **original payment method** only.
- Processing time after approval: **5–10 business days**, depending on the payment provider.
- Refunds over **USD 5,000** require approval from a Billing Operations manager before processing.

6. How to request a refund

Customers may request a refund through the CloudXeus support portal or by contacting customer support. Each request requires the account ID and the invoice or transaction number.

7. Exceptions

Refunds outside this policy require written approval from the VP of Customer Operations and are granted only in exceptional circumstances.
